

### 宏观经济学课后思考和练习 3

思考：

1. Suppose you are advising a small country (such as Bermuda) on whether to print its own money or to use the money of its larger neighbor (such as the United States). What are the costs and benefits of a national money? Does the relative political stability of the two countries have any role in this decision? (Problems and Applications 5, Chp 4)
2. During World War II, both Germany and England had plans for a paper weapon: they each printed the other's currency, with the intention of dropping large quantities by airplane. Why might this have been an effective weapon? (Problems and Applications 6, Chp 4)
3. Some economic historians have noted that during the period of the gold standard, gold discoveries were most likely to occur after a long deflation. (The discoveries of 1896 are an example.) Why might this be true? (Problems and Applications 9, Chp 4)

练习：

1. 课本第四章问题与应用（Problems and Applications）第 7 题
2. 课本第四章问题与应用（Problems and Applications）第 10 题
3. 课本第五章问题与应用（Problems and Applications）第 2 题
